

### REMARKS

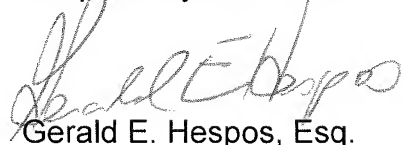

The Examiner concluded that the application includes claims directed to two inventions, and required the applicant to elect one of the two inventions identified in the office action.

The applicants hereby elect claims 1-13.

The undersigned attorneys for the applicants noted that the filing receipt for this application includes a title different from the title presented on the various documents submitted to the United States Patent and Trademark Office on December 6, 2005 to meet the requirements under 35 USC 371. It appears that the title presented on the filing receipt corresponds to the English language translation of the title presented in the International Application. This amendment is presented to ensure that the title of the invention conforms more closely to the elected claims and the preferred title presented on all of the documents filed with this application on December 6, 2005.

Early and favorable action on elected claims 1-13 is solicited.

Respectfully submitted,

Gerald E. Hespos, Esq.
